5) It is seen from the indenture executed by the Vellum Parachute Silk Co. in connection with the Silk Filature Expansion Scheme, that the extent of land in the holding of the Company at Goribidnur is about 53 acres. Only a very small extent of this land is occupied by the existing buildings, wells, etc. I feel that there is plenty of land already at the disposal of the Company at Goribidnur for factory extension, staff quarters, hospital, market, etc. As such I do not see the need for acquiring more land for the purposes of the filature.

6) I am not in a position to say whether the alluvial land in the river bed can be given to the Company. The D.P.W. authorities may perhaps be consulted in this regard.
